Labor Day

A word from the mayor...

Hello Saint-Anicet,

Today, I wish to speak about a few topics:

A project is presently being planned to develop the Saint-Anicet wharf located at the heart of the village in Jules Léger Park. This wharf could become a tourist attraction for our Municipality. The Saint-Anicet Historical Society has already used the wharf for cruises to discover the history of the lake in our region as well as the wealth of Lake St-François. This wharf could become the anchor to tourist development of our Municipality.

Perhaps in the coming months, we will realize the inter-generation park project, which will be located beside the Community Centre and the Maison des Organismes (former rectory). This park could be a meeting place for citizens, Corn Festival and many other events which would follow. In this park, young people and seniors will have common zones. Thanks to the financial contribution of the ZIP committee (priority intervention zone) the possible grant of \$100,000 from the ministère des Aînés (programme Primada), the difference would come from a loan bylaw. This park will become a source of pride for Saint-Anicet.

There is no favorable wind for one who knows not where he goes (Seneca)

An important stake for future years is the state of our infrastructures. With time, they are in need of a bit of love. When I speak of infrastructures, this includes roads, moving stock, municipal buildings and the purification plant. The success of this management plan of our assets depends on it having the least impact on our citizens' ability to pay.

All projects can be realized with excellent planning. My priority is the well-being of my citizens, the quality of the service we offer. But we must work in the long term, towards making the Municipality of Saint-Anicet stand out. Each day I see and I hear of inspiring examples of members of the community who rise to the occasion. I wish to thank all those who contribute to support local businesses in all safety, whether it be at home or near by. I'm always confident in the ability of the citizens of Saint-Anicet to react as a community. By working together we can keep Saint-Anicet strong!

« Planning is assuredly the most important step for the future of Saint-Anicet. »

In closing, many ask me what is an MRC? An MRC is a grouping of municipalities, managed by a council made up of the mayors of the member municipalities (the Haut-Saint-Laurent MRC is made up of thirteen mayors). The Haut-Saint-Laurent region has local and regional stakes, its mandate is economic development, management of the territory, management plan for waste material and the risk coverage plan.

Sincerely yours,

Gino Moretti, Mayor

Important notice

Dog Census

Census takers from the SPCA Monani-Mo shelter are presently visiting our residences in order to register and give out licenses for all dogs on the territory. They carry identification badges with their photo and also, if requested, a letter signed by the managing director of the Municipality.

The cost of a dog license for 2020 is \$25 per dog for a maximum of two (2) dogs per property. A maximum of five (5) dogs is allowed for agricultural use in the agricultural zone. The SPCA Monani-mo shelter will take payments in cash, credit and debit cards.

This census is in accordance with Article 13 of Bylaw 515 which states that no one can keep a dog within the limits of the municipality without having obtained beforehand a license from the Municipality to that end.

This process not only allows us to keep our files up to date on the animals already registered but also to proceed to the registration of any new dogs who live on our territory.

Due to the present situation, please note that the census takers will wear the necessary protective gear to ensure everyone's safety.

We invite you to visit our Facebook page and our Internet site.

NEW Visible civic numbers

The installation of reflective identification plates with civic numbers will begin in September on Route 132, Cazaville, Cooper and Quesnel sideroads, Concession-Quesnel, Curran, Currie, Leahy, McDonald, Neuf, des Prairies, Ridge, Rivière-La Guerre, Saint-Charles, Smith, Stuart and Walsh roads. The installation for other roads in the Municipality will be done in 2021.

This initiative aims to standardize identification along public roads which will facilitate finding residences and will thus promote efficiency and speed in emergency situations.

According to the bylaw, the post must be situated more or less 1 meter on one side or the other of your driveway and at least 6 meters from the side of the street. Please note that it is the responsibility of owners to maintain and to ensure that this post is installed at the appropriate place, think about snow removal.

If you presently have underground restrictions, please identify them with paint. However, please note that the employee will have to be able to displace the post if he judges it to be improperly placed and that the Municipality cannot be held responsible for damages caused by the installation of this post.

For any additional information, please contact us.

Poll results—Private roads, streets and avenues

Here are the results of the poll that we sent last June to citizens on private roads, streets and avenues. The results were compiled August 10, 2020.

5.5% of citizens answered the poll:

- 81,5% of citizens knew their representative ;
- 95,4% of citizens answered that their road was accessible all year round;
- 43,1% of citizens knew that a survey was done recently;
- 52.3% of citizens knew that emergency vehicles could not reach them, that their home insurance will not cover them;
- 87.69% of citizens knew that the Municipality offers consulting services for managing private avenues and streets;
- 35% of citizens noted that people go over the limits of their lots;
- 41.5% of citizens brought up situations disturbing their tranquility;
- 81.5% of citizens wished to meet the committee as well as municipal council members;
- 75.4% of citizens are favourable to the idea that the Municipality prepare a plan to acquire the roads.

A legal counsel was asked to prepare legal advice on the responsibilities of the Municipality in an intervention context of private roads. The committee will analyse the criteria and the way to proceed.

Numerous disagreeable situations were included in the answers to the poll, some have been sent to the appropriate authorities.

Be assured that all comments will be brought up at the next meeting of the committee on private roads.

Caution and vigilance is always required in school zones

A reminder to students and drivers

The police will be noticeably present near schools and will watch for speeding in school zones, respecting stop signs, no parking zones, school buses and crossing guards' flashing lights as well as the use of cell phones at the wheel and the wearing of seat belts.

Respecting school crossing guards

School opening is also the return of school crossing guards at certain intersections. Faithful to their job, in good or bad weather, they are responsible for the safety of students. Their role is crucial. Courtesy towards them and respecting their directives add to the quality of their work as well as contributing to a school opening without incidents.

Parking

The police is also asking the collaboration of parents when they bring their children to school by respecting the no parking zones near schools. These are there to ensure the safety of children. It is strictly prohibited to park in these zones even when remaining in the vehicle.

Too often, infractions to road safety are seen near schools and school busses.

Act with caution and respect safety rules. For the safety of children, bus drivers and school crossing guards, be vigilant and reduce your speed in school zones.

Thank you for your collaboration!

Grass and brush

Grass and brush must be cut so as not to exceed the allowed height of 20 cm with the exception of agricultural land and the river bank protection zone. Any owner who contravenes this bylaw can be fined up to \$400. a day.

Permit requests

You have construction projects on your property? Please note that there are specific norms to install or construct a building (house, garage, shed, pool, stabilizing the shore, etc.) and that obtaining a permit or certificate is needed for the majority of work. Since each project is different, we recommend that you contact the person responsible before starting your project at 450 264-2555 ext. 15 or by e-mail at ageary@stanicet.com. The request form is available on the home page of our web site (www.stanicet.com). Please make sure that all required documents are attached to your request to make processing it easier.

Temporary shelters

Temporary shelters can be set up starting October 1, 2020.

Use of a camper trailer

It is illegal to use a camper trailer on any lot other than on an authorized camp ground. Owners who contravene this bylaw can be fined \$500, a day.

Sludge measurement in septic tanks

We are planning to measure sewage sludge in septic tanks in September. You have until September 3, 2020 to register on the list by calling 450 264-2555 or by e-mail at [squenneville@stanicet.com](mailto:squennewille@stanicet.com). The date of the measurement will then be determined. We remind you that the measurement of sludge in your septic tanks can be done to see if your septic tank needs to be emptied. If measurements are inferior to the maximum norms, the cleaning can be put off to next year or you can ask for another measurement the following year. The cost of this service is \$25.
